ABOUT YOUNG INNOVATIONS

Young Innovations continually seeks to equip oral health professionals with the knowledge, products and services they require to meet the needs of patients — ultimately our shared and most important customers.

Since the early 1900s, Young Innovations has been delivering premium products that continue to push the dental industry forward. We have spent the last century cultivating a strong connection with the dental community and developing a deep understanding of what clinicians need as the industry has evolved. Dental professionals have always been our primary focus and, as such, their input directly influences our product offerings in the preventive, restorative, endodontic and diagnostic segments. Our consistent focus on our customers and on product innovation has led us to become a leading designer and manufacturer of preventive dental products, restorative accessories and instruments dental professionals can rely on to enhance their clinical success.

YOUNG™

ELITE™ PROPHY CUPS

Young offers dental professionals the widest variety of prophy cups in both latch and screw type to suit every need. Young guarantees that each cup will provide the same durable, consistent and reliable performance for each polishing procedure. Cups are color coded for simplicity.

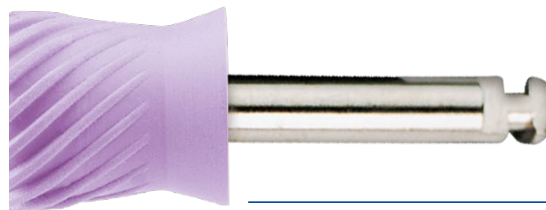

All Prophylaxis
Cups are Made
With Proprietary
**LATEX AND BPA-
FREE**
Rubber!

Proprietary rubber offers
greater flare for a better
polishing experience

Internal webbing conforms
to the tooth surface and
reduces splatter

Exterior ridges remove
interproximal stains

Engineered specifically for the
unique requirements of the
European dental professional

PROPHY CUPS

Young™ Prophylaxis Cups

- » Each cup is designed to be used on any patient but has specific features that make it more useful in different clinical situations (mouth sizes, stain level, periodontal health status, etc.)
- » We have unique dual-colored cups for easy identification. Our outside cup color represents firmness level (● Blue=Firm, ● Purple=Soft, ● Pink=Extra Soft)
- » All prophylaxis cups are made with a proprietary latex-free rubber
- » Our prophylaxis cups also come individually sealed in unique blister packaging. This greatly reduces the risk of cross contamination, and reinforces the single-use concept

YOUNG™

DISPOSABLE PROPHY ANGLES

Young prophy angles are designed to access hard-to-reach areas with ease, while a smooth, round head design make polishing enjoyable for both hygienists and patients. Disposable prophy angles reduce the risk of cross-contamination and save time because they are single use and don't require disinfection.

Save Time and Money with a DPA by reducing processing cost and wear of handpiece.

INSTRUMENT CASSETTES

GALAXIE Cassettes

The gold-standard solution for instrument reprocessing.

A new range of cassettes - ergonomic and smart - offers an optimal solution for the classification, cleaning and sterilization of dental hand-instruments, while increasing safety and efficiency in the practice.

DIN cassette for 20 instruments
PP40373-3

High Quality Materials:

- » Electropolished stainless steel makes the cassette edges smooth and protects against corrosion.
- » Only food grade silicone used.

Innovative and ergonomic closing latch:

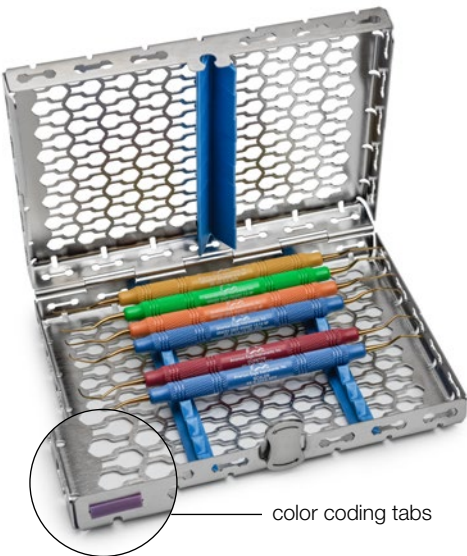

- » Safe and easy-to-use locking system, allows one-handed opening.

New design for a better cleaning process:

- » The new and innovative laser cutting pattern guarantees maximum efficiency during the cleaning and sterilization process whilst ensuring stability and strength of the cassette.
- » Open lattice design specially designed for washer disinfectant use, enabling maximum water through flow.
- » Smooth round corners and slotted edges increase drainage and reduce drying time.

Innovative color coding and modular silicone holders:

- » The innovative shape reduces instrument contact allowing for more liquid flow and for more efficient cleaning.
- » 5 color coding tabs for practice organization included with every cassette.
- » Silicone rails can be assembled in any position, are compatible with all handle diameters.

1/2 DIN cassette for 10 instruments
PP40372-2

1/4 DIN cassette for 5 instruments
PP40371-2

Item #	Description
PP400371-2	Cassette for 5 instruments, 1/4 DIN, blue rails, incl. 5 color coding option (purple, red, yellow, green, orange, black), 185x80x37mm
PP400372-2	Cassette for 10 instruments, 1/2 DIN, blue rails, incl. 5 color coding option (purple, red, yellow, green, orange, black), 185x148x37mm
PP400373-3	Cassette for 20 instruments, DIN, blue rails, incl. 5 color coding option (purple, red, yellow, green, orange, black), 285x183x37mm

Cassettes will be delivered without instruments.
